

Psychological Intuit

*Tricia Santi, M.S., M.A., LMFT
Reiki Master Teacher, Counselor, Healer, Artist*

All healing takes place within the physical, emotional and spiritual realms. Our emotional and spiritual health affect our physical health and it is often when illness or injury occur that we are able to look at the other aspects of our lives to begin the process of healing.

Tricia's unique gift is to create an emotionally safe environment for healing to take place. Many years in the field of psychology and counseling combined with more recent years in the healing arts field uniquely enables Tricia to tune into an individual's psychological and emotional well-being and assist in the discovery of spiritual aspects of self.

What does this mean in a more practical way? Individuals who work with Tricia are able to gain new perspectives, problem-solve life issues and navigate life transitions more smoothly and peacefully. Relationships improve, and life goals crystallize. Most often physical health improves.

Each healing session is a collaborative effort. Tricia uniquely balances the session drawing from her many healing modalities enabling her keen sense of intuition to craft the experience. As the healing session progresses, impressions, thoughts, and feelings are received by both the individual and Tricia. In this supportive environment Tricia will process and discuss the experience with you through the eyes of counselor and healer.

Come join Tricia on the banks of the Kennebec River in Phippsburg, Maine
